

March 16-19 | 2020

Complex Cases. Clear Solutions.

11TH Annual Global Implantology Week at NYU

2020 VISION

NYU | DENTISTRY

Linhart Continuing Dental Education Program

ZIMMER BIOMET DENTAL *and* NEW YORK COLLEGE of DENTISTRY
ARE PROUD TO ANNOUNCE OUR...

11TH Annual Global Implantology Week

Gain Clarity and Vision for the Future

On behalf of Zimmer Biomet Dental and NYU College of Dentistry, you are cordially invited to attend this four-day event, which will be hosted at the world-renowned NYU College of Dentistry. We at Zimmer Biomet Dental are so proud to once again hold our annual program in New York City, a great and diverse center of culture and learning.

The 11-year collaboration with NYU College of Dentistry has allowed us to produce some of the most innovative and revolutionary topics presented in the field of dental implant therapy. The course is structured to give you clarity of vision on complex cases and insight into what the future will hold within our industry. Our agenda will open your eyes to a simplified approach to these complex topics: Principles of Tissue Augmentation (hard and soft), Interdisciplinary Approaches, Immediacy, Innovative Treatment Options for Complex Rehabilitations and A Minimally Invasive Approach to Solve Complex Cases. The Future is Now!

We truly hope you take advantage of this unique educational opportunity, and we look forward to welcoming you to NYU College of Dentistry in March 2020. We invite you to share our vision.

Please don't miss out on this annual event.
